

Coming soon: A better way to bank

Recently, you heard from us about upcoming enhancements to our CIT Bank online banking system. You'll enjoy even more benefits as a CIT Bank customer when these new features are introduced during the second quarter of this year:

- **Greater security** – With advanced authentication, no one but you will have access to your account. If there is a log-in attempt from a device we don't recognize, we will send you a one-time log-in code by phone or text.
- **Access to Quicken®** – Download your transactions into your preferred format, such as Excel or PDF.
- **Expanded on-the-go banking** – Bank anytime, anywhere from your tablet device with our new tablet-compatible app.
- **More flexible beneficiary options** – You'll be able to designate legal entities, such as trusts and foundations, as beneficiaries.

We'll update you regularly as we get closer to the implementation of these new online banking features—so please continue to check your email.

Thank you for choosing CIT Bank. We appreciate your business and the opportunity to serve you.

Important:

Please keep your contact information up-to-date—especially your mobile number. It will provide the easiest way to authenticate your identity when our new security measures go into effect.
